

GENERAL TERMS AND CONDITIONS OF SALE AND DELIVERY OF MARINE FUELS EFFECTIVE AS OF 6TH OCTOBER 2022

2022 EDITION (This Edition leaves any previous edition void)

Preamble

These General Terms of Sale are not subject to the United Nations Convention on Contracts for international sale of Goods of 1980, nor shall that Convention be applicable to these Terms of Sale. This exclusion is pursuant to article 6 of the said Convention.

These General Terms of Sale govern the Marine Bunker Sale Contracts that are entered into between VILMA OIL, S.L.U., a Spanish Company located at Edificio Madrid 92, C/ Chile 10, 28290 Las Rozas (Madrid) (hereinafter "**THE SELLER**") and "**THE BUYER**" with regard to everything related to nomination, delivery, price, quality and payment of the Marine Fuel sold. In the event of any discrepancy between the General Terms of Sale and the Specific Terms agreed by the parties, in each case, the latter shall prevail.

These conditions apply to all offers, quotations, orders, agreements, services and all subsequent contracts of whatever nature, except where otherwise is expressly agreed in writing by Vilma Oil.

General trading conditions of another party will not apply, unless expressly accepted **in writing by Vilma Oil.**

These General Terms and Conditions shall apply to all deliveries contracted for unless the Sellers expressly confirm otherwise in the Confirmation Note. Each delivery shall constitute a separate contract.

2. Specifications/Grades/Quality

- (a) The Buyers shall have the sole responsibility for the nomination of the specifications and grades of Marine Fuels fit for use by the Vessel. The nomination by the buyer shall be the final and binding confirmation of the aforesaid quality and compatibility.
- (b) The Sellers warrant that the Marine Fuels shall be of a homogeneous and stable nature and shall comply with the specifications and grades nominated by the Buyers. Unless otherwise agreed in the Bunker Confirmation, the Marine Fuels shall in all respects comply with the relevant edition of ISO Standard 8217 as per the date of the Bunker Confirmation.

3. Quantities/Measurements

In its Final Supply Order, the buyer shall state the quantity of Marine Fuel to be supplied and that amount must be stated in metric tons (MT), or in cubic meters (CBM).

- (a) Subject to the provisions of sub-clause 6 (c) and clause 9 (Claims) hereunder the quantities of Marine Fuels delivered shall be determined from the official gauge or manual sounding or meter of the Bunker Tanker effecting delivery, or in case of delivery ex-wharf, of the shore-meter or the like equipment.
- (b) The Sellers shall invite the Buyers or their representatives to witness the opening and closing gauge, or manual sounding or meter reading and the taking of bunker temperature of all bunker tanks of the Bunker Tanker and shall be given sufficient information and access to the official gauge or manual soundings or meter of the Bunker Tanker or shore-meter and relevant documentation to verify the volume delivered. The absence of Buyers or their representatives shall not prejudice the validity of the measurement of the quantities of Marine Fuels delivered.

The measurements taken on board the ship supplied shall not be binding on the Seller, so any claim concerning the amount of Marine Fuel supplied based on measurements taken unilaterally on board the ship shall be completely inadmissible and irrelevant.

In respect of the quantity agreed, both the Buyer and the Seller shall accept a variation of 5% from the agreed quantity, when such variation is due to the operational impossibility to stop the supply at the exact quantity agreed, with no other consequence than a similar variation to the corresponding invoice from "the Seller."

- (c) The Marine Fuels to be delivered under the Contract shall be measured and calculated in accordance with the ISO-ASTM-API-IP Petroleum Measurement Tables.

4. Sampling

- (a) The Sellers shall invite the Buyers or their representatives to witness the sampling of Marine Fuels. During bunkering, a primary sample shall be drawn at a point, to be mutually agreed between the Sellers and the Buyers or the Ship's Master, or their respective representatives, at the manifold of the supply barge or at the manifold of the land terminal from which the supply is made, whichever is applicable corresponding to the delivery method.

The absence of the Buyer or the Ship's Master or their respective representatives during the commercial sample taking process shall be considered irrelevant to those ends. Each sample shall be thoroughly mixed and carefully divided into a minimum of five (5) identical samples and one sample of each grade of Marine Fuels shall be retained on board for MARPOL purposes.

For all supplies in tanker truck, the Seller will not take commercial samples, except when expressly asked to do so by the Buyer, in writing and at least forty-eight (48) hours before the supply, and the Buyer shall accept the cost of same.

- (b) The samples referred to in sub-clause 4 (a) shall be securely sealed and provided with labels showing the Vessel's name and IMO, identity of delivery facility, bunker grade, delivery date and place and point of sampling and seal number, authenticated with the Vessel's stamp and signed by the Sellers' representative and the Master of the Vessel or the Master's authorised representative.
- (c) Three (3) samples shall be retained by the Sellers for thirty (30) days after delivery of the Marine Fuels to the Vessel or, on being requested in writing by the Buyers, for as long as the Buyers may reasonably require, and the other two (2) samples shall be retained on board the Vessel (one of which shall be for MARPOL purposes).
- (d) If the quantity is delivered by more than one Bunker Tanker, the sampling procedure shall be repeated as outlined in this clause 4.

5. Delivery

- (a) Delivery of the Marine Fuels shall be made day and night, Sundays and holidays included, at the port or place of delivery, subject always to the custom of that port or place.
- (b) The Buyers, or their agents at the port or place of delivery, shall give the Sellers or their representatives at the port or place of delivery, seventy-two (72), forty-eight (48), twenty-four (24)

hours approximate and twelve (12) working hours definite notice of the Vessel's arrival and the location and time at which the delivery is required. The Buyer, or their local representatives, shall also notify the Seller or its local representatives of any changes on the arrival of the ship exceeding three (3) hours (one (1) hour in the case of supplies by tanker truck), and will report the exact position of the ship and time at which the supply is required. Any change exceeding those margins will immediately be reported in writing to the Seller.

(c) The Sellers shall:

(i) be in possession of all permits required to comply with all relevant regulations pertaining to delivery of Marine Fuels at the port or place of delivery, and;

(ii) subject to local laws, render all necessary assistance which may be reasonably required to make connections and disconnections between the delivery hose(s) and the Vessel's bunker manifold.

(d) The Buyers shall be responsible for making all connections and disconnections between the delivery hose(s) and the Vessel's bunker manifold and to ensure that the hose(s) are properly connected to the Vessel's bunker manifold prior to the commencement of delivery.

(e) The Buyers shall ensure that the Vessel is in possession of all certificates required to comply with all relevant regulations pertaining to delivery of the Marine Fuels at the port or place of delivery and that the Master of the Vessel shall:

(i) advise the Sellers in writing, prior to delivery, of the maximum allowable pumping rate and pressure and agree on communication and emergency shut-down procedures;

(ii) notify the Sellers in writing prior to delivery, of any special conditions, difficulties, peculiarities, deficiencies or defects in respect of and particular to the Vessel which might adversely affect the delivery of the Marine Fuels, and;

(iii) provide a free side to receive the Marine Fuels and render all necessary assistance which may reasonably be required to moor or unmoor the Bunker Tanker, as applicable.

6. Documentation

(a) Before commencement of delivery the Sellers shall present for written acknowledgment by the Master of the Vessel or the Master's authorised representative, a Bunker Supply Agreement or similar document, duly signed by the Sellers or their representative, which shall contain the quantities to be delivered and all information required in accordance with ISO 13739 or any subsequent amendments thereof, including, in particular, the values for: viscosity; density; Sulphur content; flash point; and delivery temperature. In addition, and if available, similar information shall be provided for vanadium, ash content, water content and pour point. In the event that local bunkering rules and regulation apply mandatorily, these shall take precedence over the provisions of this sub-clause (a).

(b) Once the delivery is completed and quantities measured, a BDN shall be signed and stamped by the Master of the Vessel or the master's authorised representative, and returned to the Sellers, or their representative, as acknowledgement of the actual volume and the actual delivery temperature only and a duplicate copy shall be retained by the Master of the Vessel. This receipt shall contain the following minimum information which is warranted by the Sellers: delivered quantity in volume units;

density in kg/m³ at 15°C as per ISO 3675; delivery temperature; flash point; Sulphur content in % m/m as per ISO 8754; and viscosity.

- (c) In the event the Master of the Vessel is not satisfied with the sampling, quantity or any other matter concerning the Marine Fuels or their delivery, the Master shall on completion of delivery, issue a separate letter of protest, receipt of which shall be acknowledged in writing by the Sellers' representative within 24 hours of the supply of the Marine Fuel.

The BDN/BDR will remain "clean" in all cases and shall not include any kind of protests or remarks whatsoever.

The signature of the Master of the Vessel or any other person acting in his name in the BDN/BDR shall imply a ratification of the sale contract on behalf of the Vessel's Owner.

7. Price

- (a) The Sellers' price of the Marine Fuels is only valid if the Vessel arrives within the Delivery Period and shall be in the amount expressed per unit and in the currency stated in the Confirmation Note for each grade of Marine Fuels delivered into the Vessel's tanks free delivered/ex-wharf as applicable and stated in the Confirmation Note. In the event the price is quoted in volume units, conversion to standard volume shall be at sixty (60) degrees Fahrenheit or at fifteen (15) degrees Celsius.
- (b) Any and all additional charges, incurred by the Sellers which are for the Buyers' account shall be specified in the Sellers' quotation and in the Confirmation Note and shall include but not be limited to:
- (i) wharfage charges, barging charges or other similar charges;

 - (iii) mooring charges or port dues, and;
 - (iv) duties, taxes, charges or other costs in the country where delivery takes place.

8. Invoicing and Payment

- (a) All the invoices shall be issued in Euros or U.S. Dollars (or the currency adopted by mutual agreement by the parties).
- (b) Payment for the Marine Fuels shall be made by the Buyers within the number of days stated in the Confirmation Note after the completion of delivery. In the event payment has been made in advance, such payment shall be adjusted on the basis of the actual quantities of Marine Fuels delivered and additional payment and/or refund shall be made within seven (7) days after the completion of delivery.
- (c) Payment shall be made in full, without set-off, counterclaim, deduction of any kind and/or discount, free of bank charges.
- (d) Payment shall be deemed to have been made on the date the payment is credit to the bank account designated by the Sellers.

- (f) Any delay in payment and/or refund shall entitle either Party to charge interest at the rate of two (2) per cent per month or the maximum rate permitted by applicable law, unless otherwise agreed as per the Confirmation Note.

All amounts more than 15 days past due shall incur an additional 5% administrative fee. All payments received from the Buyer after an invoice is overdue shall first be applied to interest, legal collection costs and administrative fees incurred before they will be applied to the principal amounts on a subsequent delivery. The Buyer may not designate application of funds to a newer invoice so long as there are any unpaid charges, interests, collection costs or administrative fees on a previous one. This shall not be construed, however, as preventing the Seller's option to choose application of funds in instances where subsection (g) shall apply. Any waiver by the Seller of interest charges or administrative fees on a particular invoice shall not be construed as a waiver by the Seller of its rights to impose such charges on subsequent deliveries.

- (g) In the event that more than one invoice is past due at the same time, the Seller shall be entitled, at its sole discretion, to specify the particular invoice to which any subsequent payments shall be applied.

- (h) Any invoice being unpaid 7 (seven) days after its due date, the Seller may:

(i) Refrain from providing new supplies pending delivery, annual accounts new sales to the Buyer as well as to third parties on its behalf.

(ii) Reclaim upon the Buyer all the expenses of recovery (including judicial expenses and lawyer's fees) of any of the sums aforementioned that will be borne by the Buyer.

- (i) Partial payment of an invoice is not equivalent, in any case, not even in the case of claims by the Buyer pending resolution, to effective payment and the Seller shall effectively be entitled to full collection of the sums it is owed and the debit balance shall attract interest at the rate mentioned in section (F) above.

- (j) The bunkered vessel, the Buyer, the Ship Owner Company, the Management Company, the Charterer and any Parent company or Majority shareholder, if any, shall be joint and severally liable for payment of the price of the Marine Fuel supplied.

The Buyer must inform the Seller about any change on bunkered ships ownership or management as soon as the Buyer knows that any change could take place.

The Seller may enforce his credit, in the manner and within the legal limits foreseen on the ship bunkered and on the chartered goods accrued thereon.

- (k) The sum owed by the Buyer for payment of the price of the Marine Fuel supplied, plus the interest and expenses accrued, may be compensated with other debts that the Seller has to the Buyer, arising from other commercial transactions with the Buyer, prior express consent from the Seller to said compensation.

- (l) All judicial and extrajudicial costs and expenses, including pre-action costs, fees, expenses and disbursements of the Seller's lawyers/attorneys-at-law, incurred in connection with non-payment or delayed payment or by any other breach by the Buyer of these conditions, shall be for the Buyer's account, immediately payable by the latter to the Seller. In case of litigation, the Buyers shall also pay all the relevant expenses to the Seller, including but without limitation all his reasonable attorneys/lawyers' fees, costs and disbursements.

- (m) It is mutually agreed that the Bunkers provided by the Seller to the Buyer under the terms of this Agreement have been ordered by the Buyer in the ordinary course of business between Seller and Buyer. All payments from Buyer to Seller for Bunkers supplied under this Agreement are deemed to have been made in the ordinary course of business between Seller and Buyer, according to these ordinary business terms agreed between them.
- (n) In the event of non-payment or non-refund, the Seller reserves the right to pursue such legal remedies as may be available to them to recover the amount owed.

9. Claims

(a) Quantity

- (i) Should the Master of the Vessel supplied not agree with the quantity or any other circumstances related to the Marine Fuel or its supply, he must state these circumstances in a Letter of Protest, which must be delivered to the Seller within twenty-four (24) consecutive hours following the supply of the Marine Fuel. A fully documented claim for such quantity dispute must be presented to the Sellers by the Buyers in writing within fourteen (14) days from the date of the supply, failing either/both of which such claim shall be deemed to be waived and barred.

- (i) Any claim as to the quality or specification of the Marine Fuels must be notified in writing promptly after the circumstances giving rise to such claim have been discovered and fully documented within thirty (30) days of the date of delivery. If the Buyers do not notify the Sellers of any such claim pursuant to the aforementioned within thirty (30) days of the date of delivery, such claim shall be deemed to be waived and barred.
- (ii) In the event a claim is raised pursuant to sub-clause 9(b)(i), the Parties hereto shall have the quality of the Marine Fuels analysed by a mutually agreed, qualified and independent laboratory.
